Professional Summary

Motivated BCA undergraduate with hands on experience in building full stack web applications using the MERN stack. Skilled in developing responsive frontend interfaces and secure backend systems, including authentication, API integration, and real time features. Passionate about building scalable applications and continuously improving through practical projects.

Education

Babu Banarasi Das University, Lucknow

2023 – 2026

Bachelor of Computer Applications (BCA) – Computer Applications

Technical Skills

- **Languages:** JAVASCRIPT (ES6+)
- **Frontend:** HTML5, CSS3, REACT.JS, SCSS, TAILWIND CSS, CONTEXT API
- **Backend:** Node.js, Express.js, MongoDB, MONGOOSE, REST APIs, JWT, REDIS
- **Tools & Platforms:** Git, GitHub, VS Code, VERCCEL, GEMINI AI, POSTMAN, MONGODB COMPASS, IMAGEKIT
- **Office Tools:** MS Word, MS Excel

Projects

- [\[LINK\]](#) **VelDown – YouTube Extraction Tool | React.js, Node.js, Express.js** – Built a high performance YouTube extraction tool that uses OAuth2 Device Flow authentication to bypass bot detection and ensure reliable downloads, while implementing a zero-storage streaming architecture using Node.js subprocess pipelines to deliver fast, interruption free media directly to the client without storing files on the server.
- [\[LINK\]](#) **Moodify – Mood Based Music App | React, SCSS, Node.js, MongoDB, Express.js** – Built a full stack music streaming platform that recommends songs based on user mood. Designed secure authentication with JWT, Redis token blacklisting, and protected API routes. Implemented audio upload, metadata extraction (ID3), and cloud storage integration using Image Kit.
- [\[LINK\]](#) **Social Media Web App | React.js, Node.js, Express.js, MongoDB** – Developed a full stack social media application with user authentication, post creation, and dynamic UI interactions, while implementing secure login/signup, REST API integration, and backend services to efficiently manage user data and content.
- [\[LINK\]](#) **MacOS | REACT, SCSS** – Developed a macOS-style web interface using React with a functional dock-based navigation system and dynamic window rendering. Built a custom terminal emulator supporting command inputs, help menu, external integrations (GitHub, Gmail, Spotify, Calendar), and wallpaper customization.

CERTIFICATIONS & TRAINING

- **Full Stack Web Development (MERN):** Ongoing
- **Version Control with Git & GitHub** - Practical experience with repositories, commits, and deployment.
- **C Programming:** Certification of Completion [\[LINK\]](#)
- **Self-learning / Online Training (MERN Stack) | Expected Completion [April–May 2026]** – Currently focusing on frontend development; backend learning planned as part of course.
